

Top 20 College & University Partner List (as of January 9, 2013)

The Top 20 College & University list represents the largest green power users among higher education institutions within the Green Power Partnership. The combined green power use of these organizations amounts to nearly 1.7 billion kilowatt-hours of green power annually, which is equivalent to the carbon dioxide emissions from the electricity use of more than 178,000 average American homes annually.
